

# zero

SPRING 2026

## TECHNOLOGY

No matter the conditions. Our high-performance wear will ensure that all your needs are met. Zero Restriction employs cutting edge technology in our fabrics, trims, and design details. The noiseless, waterproof membrane fabrics, shape-retaining memory wire collars, YKK Aquaguard zippers, locking zipper pulls that stay put, and highest rated, seam-sealing tapes that are engineered with the end user -YOU- in mind.

All Zero Restriction waterproof fabric is treated with a Durable Water Repellent (DWR) coating which causes water to bead on its surface. This layer is essential in keeping the outer layer of the garment from becoming saturated (aka "wetting out") and maintaining its breathability.

Lightweight and versatile, Zero Restriction wind pieces effectively block any wind that springs up, engineered for comfort and freedom of motion, the entire ZR windproof line employs the highest level of fabrics, ensuring play in blustering conditions.

Viewing the body as a map, Zero Restriction has engineered critical points on its garment to allow a greater range of motion. Using different fabrics and details in strategic locations means increased flexibility and fit where it's needed most while reducing distraction. The outcome? Outerwear that feels like it isn't there.

## FABRIC TECHNOLOGY

Our fabric technology offers exceptional waterproofness, moisture permeability, and resistance to condensation, while still offering durable protection. A non-porous membrane helps to absorb perspiration vapor and disperse it through the fabric. With a smooth texture, lightweight configuration and high elasticity, garments are noticeably softer and enhance comfort.

This revolutionary fusion of multiple technologies creates a product with warmth, comfort and protection never before achieved with synthetic insulation. The insulation has a high warmth-to-weight ratio and is water resistant, which makes it lighter and more packable. It is also developed with 35% post consumer recycled material.

## ANYTHING BUT ENTRY-LEVEL

For over 30 years, we've been pushing the boundaries of performance clothing through motion-tuned technology, innovating waterproofing and unparalleled design. From our signature golf jackets to our breathable, moisture-wicking layers for the gym and the office, our products are designed to perform at the professional level—but are comfortable enough for everyday wear.
